MEMORANDUM FOR: Acting Chief, Regulations Control Staff

SUBJECT : Proposed FR 20-130: Employment Policy and Procedure

1. Our comments on R 20-130 are also applicable here.
2. We question the sterilization value of the opening line, "Establishment of a President's Committee on **CHUCK** Employment Policy," since it must be apparent to any reader what **CHUCK** means.
3. There might be merit in the adoption of a set of standard criteria of sterilization of field regulations. If such criteria have already been established, we suggest that they be more widely publicized.
